

Dutch Industrial Supply Pavilion

Hall 4, location D44

The Forum Dutch Industrial Supply improves business by exchanging knowledge with small and medium-sized companies. The focus is to reach a higher added value due to digitalization and "Industry 4.0".

To remain competitive Dutch companies implemented digital innovation in cooperation, customer interaction, product development, production and logistics. In addition, keen specialist presentations and stimulating discussion sessions with experts from industry and academia from various branches of industry are on the program with practical solutions for topics such as Industry 4.0, Smart Factory, Value Creation, Supply Chain Networks, Value Chain integration, 3D-metal printing and successful cooperation between OEMs and start-ups.
